

Community Hub & Community Recovery

Next Steps – Consultation August 2020

Background

The community response to the COVID-19 pandemic in Pembrokeshire has been incredible. Individuals & communities have stepped forward to help their fellow citizens like never before. A multi-agency one-stop shop, the Community Hub, was established to assist & support this effort and has been extremely well received. The Pembrokeshire Community Support Network grew organically and now has close to 100 groups involved.

It is now time to reflect on what has worked, and what hasn't worked, to help us decide how best to respond to any ongoing or re-emerging issues, but also to harness this great spirit for the benefit of everyone in Pembrokeshire.

Name:	Town & Community Council

Community Hub

As a Town or Community Council, what are your views on the Hub? (please clarify if you have had any direct experience, or the views are based on experiences of others)

--

What has worked well over recent months (both in the Community Hub and your community)? What have you valued that you would like to see going forwards?

--

Should the Hub continue beyond COVID-19? If so, what do you see as its role?

--

Community Recovery

What will be different as lockdown eases?

What information & support do you need in future? e.g. better digital skills for video conferencing

What did not work well, what can be improved?
