Subject: Request for Information

Our Reference: **EIR/1096/2022**

Dear Ms Davies

Request for Information

We write further to your request for information dated 24th March 2022, which we have been considering under the Environmental Information Regulations 2004.

Please find below your questions alongside our responses:

- a. **Terms of any licence(s) held since January 2016 to current date (or latest available date) relating to the locations**

Please find below a list of key operating conditions for the related permits. There are a multitude of conditions which are best read by looking at the environmental permissions – copies of all four are attached.

- b. **Dates during which each licence(s) was valid at the locations between January 2016 and current date (or latest available date)**

All four assets have been regulated by Water Resources Act (WRA) Consents since before 2016. With three of them having been upgraded to Environmental Permitting Regulations (EPR) Permits in 2019/20 which has added the AMP6 driver for Event Duration Monitoring (EDM).

Permit ref.	Site name and address	Current EPR permit date	Previous WRA Consent date	Key conditions - read permit/consent for full details				
				Nature of discharge	Weir Setting	Storm Storage Volume	Solids Screening	Emergency Storage Volume

BH0074507	St. Dogmaels Jewsons Main SPS 1 Brooklyn Villas St Dogmaels Cardigan SA43 3HR	06/02/2020	18/03/2005	Intermittent CSO and EO	38 l/s	200 m3	6mm bar	None specified but storm could be utilised
BP0318101	St Dogmaels North End SPS St Dogmaels Cardigan	31/03/2004 WRA Consent	NA	Intermittent CSO and EO	5 l/s	100 m3	6mm x 6mm mesh	13hrs @ DWF
BH0074508	CSO at Rear of Teifi Inn PH Maeshyfyd St Dogmaels Cardigan SA43 3ET	24/09/2019	31/03/2004	Intermittent CSO	15 l/s	None	6mm x 6mm mesh	NA - storm only
BH0074511	St Dogmaels CSO O/S 1/2, B4546 St Dogmaels Cardigan SA43 3HR	24/09/2019	31/03/2014	Intermittent CSO	46 l/s	None	6mm x 6mm mesh	NA - storm only

- c. **Any events from 2016 to current day (or latest available date) during which the terms of the licence(s) were broken and if available the pumping volume by which the licence(s) was breached.**

We are not aware of any instances where the permit conditions were breached during this time. The assets listed in the above spreadsheet does not have permit conditions that require us to monitor and report flow performance. However, our environmental management systems and processes do ensure that we maintain and operate these assets to the standards required by our regulator. All our pumping station CSO's including the ones listed above are however required to be monitored and record each storm discharge event and its duration and this information is submitted to our regulator and provided in the attachment which is also summarised below.

St Dogmaels Main Jewsons Ps

The data is in metres until 26/04/2017, since then data is provided in %.
Spill at 100% (5.34 m) or greater.

St. Dogmaels North End SPS

The data is in metres until 31/12/2016, since then data is provided in %.
Spill at 100% (5.00) or greater.

St Dogmaels, Rear of Teifi Inn Ph, Maeshyfyrd CSO

Spill at 100% or greater.

St Dogmaels CSO

Spill at 100% or greater.

We hope that this response is clear. Should you have any questions, you can contact us at EnvironmentalInformationRequests@dwrcymru.com.

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within 40 working days of the date of receipt of this response and should be addressed to Company Secretary, Dŵr Cymru Welsh Water Linea, Fortran Road, St. Mellons, Cardiff, Wales, CF3 0LT.

If you are not content with the outcome of the internal review, you have the right to apply directly to the Information Commissioner for a decision.

Yours faithfully

Dŵr Cymru Welsh Water
