St Dogmaels Community Council is seeking quotations for the following works

Resin Bound Rubber Mulch and wet pour surfacing

at its play area at Alexandra Gardens, SA43 5ET (what3words ///tuned.thrashed.branch).

The approximate surface area is 14 sq. metres (of which .25 sq metres is wet pour) with the approximate location (indicated on Plan 1 below).

A scale plan (2) and drone photograph (3) are provided for reference.

Replacement surfaces should match, as closely as possible (taking into consideration fading of the existing surfaces), the existing surface in colour.

Any replacement should meet Critical Fall Height (CFH) requirements where applicable.

Original installation depths were 40mm to accommodate a CFH of 1.8m max (taken from original quote document).

Queries should be addressed to the Clerk.

The area is a public space and freely accessible (subject to any closures due to H&S or legislative requirements).

Accompanied site visit can be arranged. Please contact the Clerk.

Quotations should be received by the Clerk to the Council, in writing (email acceptable) using the contact details above, no later than close of office 18th October 2022.

References will be required before any contract is awarded.

The document should be read in full prior to quotation.

Additional Information

Date of works

Contractors should advise the Clerk to the Council as to dates for the works so that members of the public can be informed. Works are expected to take place within Autumn/Winter of 22/23.

Removal of waste

All arisings should be removed from the site to facilitate future access and in support of the bio-diversity plan in operation in the area. Disposal of any waste etc should comply with current legislation (see general conditions below). No waste should be allowed to enter the river or its immediate environs.

Adjacent areas

Alexandra Gardens is open to public access and this should be considered at all times during the works. The adjacent car park is the property of Pembrokeshire County Council (PCC) and should not be used for storage or access restricted to the car park without the appropriate permissions of PCC. Obtaining such permissions will be the responsibility of the contractor.

GENERAL

The Contractor should have all the necessary insurances to undertake the work and may be asked to provide evidence of these.

The Contractor is to inspect all sites prior to the commencement of scheduled works in order to determine access and site conditions. Some access to site is restrictive and the Contractor has responsibility to ensure that appropriate vehicles/machinery are used.

Where damage is the result of the contractor's operations, all works required to meet Health and Safety requirements must be completed within 2 working days. Any non-urgent remedial action must be completed within 14 calendar days following the incident. Costs of rectifying any damage must be met by the Contractor.

The Contractor will comply with all relevant environmental protection legislation.

The Contractor will comply with all current health and safety and waste disposal regulations and should be able to provide copies of the current and appropriate permits on request.

HEALTH & SAFETY

The contractor shall supply on request "Suitable and Sufficient" Risk Assessments on all work processes to be delivered as dutifully required and imposed by current Health & Safety at Work Regulations.

Where relevant the contractor shall supply on request "Suitable and Sufficient" Risk Assessments to comply with any additional health regulations (i.e., COVID-19 regulations) and guidelines in place at the time works take place.

Principal attention is protection of the public at all times, but particular attention shall be drawn to specific areas where vehicular traffic is present or nearby, gradients, slopes or banks which pose additional specific hazards or risk.

Complete compliance shall apply to all duties imposed by current legislation, whether they are acts, regulations, codes of practice, industry standards or best practices.

The Contractor will comply with all relevant environmental protection legislation.

The Contractor will comply with all current health and safety and waste disposal regulations and should be able to provide copies of the current and appropriate permits on request.

Failure to observe, implement or comply with legal duties imposed by current legislation shall be deemed in breach of contract.

COMMUNICATION

The Council has, during previous works, encountered issues with direction being given to the contractor other than by the Clerk to the Council or an additional contact as advise by the Council to cover Clerk's leave (dates will be notified in advance) or during unplanned absences (such as illness).

In the event that the Clerk is unavailable an additional point of contact will be provided.

A log of contacts and any requests/changes will be kept.

Should anyone other than the Clerk or the named liaison try to instruct the contractor with regard to the works please let the Clerk/liaison know as soon as possible.
