6.1 Applications

22/0313/PA	River View, St Dogmaels	Pontoon, decking and summerhouse	St Dogmaels Community Council supported the application but requested the following conditions be applied: That full, current, habitat, wildlife and protected species protection and mitigation report be provided. That a construction management plan be provided. That no materials are stored on the foreshore. The Council supported Afon Teifi Fairways Ltd in that the pontoon must not impede the navigation channel, that a marine works license be obtained from NRW and that Ceredigion County Council and Crown Estates are contacted for any permissions and licenses.
------------	-------------------------	----------------------------------	--

22/0166/PA	48 the Moorings St Dogmaels	Proposed porch and decking with association works – amended plans	<p>22/0166/PA. 48 the Moorings. Amended</p> <p>St Dogmaels Community Council maintains its objection to the amended application on the following basis. The Community Council notes the removal of the proposed wall, however, the Community Council still has the following concerns:</p> <p>The Covenant to the deeds of the properties on the estate states that permission to do the following requires the permission, in writing, of the ‘Company’. ‘To place or erect or station any boundary walls or fences or any other erection or any description, caravans and houses on wheels huts and any other structures on any part of the property which lies between the dwelling and the front boundary of the property.’ A caveat is placed in that such permission will only be considered if approval of the planning authority has been obtained.</p> <p>While the Community Council accepts that a covenant may be difficult to enforce after a period of time if one party to the Covenant ceases to exist as a legal entity, the intention of the original design was clear in that the estate was envisioned as being open plan with clear frontages. To the Community Council’s knowledge, this has largely been respected and the open feel has been maintained by carefully considered development which has, if given planning permission, been restricted in scale and height. Respect for the intended open aspect of the estate has protected the right to light and the privacy of the juxtaposition properties particularly taking in the topography of the area.</p> <p>The proposed development, for a number of properties and with particular respect to No 50, No 49 and No 51 the Moorings, due to their juxtaposition, will severely impact and limit their visual amenity and the light the properties receive. In addition, the height of the proposed patio area will significantly impact the privacy of number 50.</p> <p>The architect of the current application acknowledges the open nature of The Moorings and states, ‘The landscape is generally open in character’. The examples shown in the documentation, of developments on the estate are not similar to the proposed development in position or scale of the wall; proposed development and are therefore misleading as examples of successful development on the Moorings estate.</p> <p>The architect’s drawings do not show the gradient or topography of the road or the properties affected at the 45-degree angle. Diagram 11 still shows the originally proposed wall. The 3D images give no impression of the proximity of other properties nor the angles and levels at which they relate to number 48 and the proposed development.</p> <p>In summary: The nature, location, siting and scale of the proposed development is incompatible with the capacity and character of the site and the area within which it is located. It would result in a detrimental impact on local amenity in terms of visual impact, loss of light and privacy. Its design pays no regard to local distinctiveness and does not contribute positively to the local context. It is inappropriate to the local character in terms of layout, scale, form, siting, massing, height, landscaping and access arrangements/layout.</p> <p>The Community Council requests a site visit be made before any decision, be that under delegated powers or at Committee.</p>
